

Quick Start: Steps for loading Game Results via FTP

- 1) Use LR command in ACBLscore to create the results file
Select 4. HTML file. Press **ENTER**
Do NOT change file location. Press **ENTER**
Do NOT change file name. Press **ENTER**
Select the recap option 10. Press **ENTER**
Do not change the report width. Press **ENTER**
Select “2 By Rank” for Print Out Order. Press **ENTER**
- 2) Click the GAMEFILE icon to open the GAMEFILE window;
resize window.
- 3) Click the FTP icon to Open the FTP Window;
resize window.
- 4) Open the Year Folder in the FTP window to display the months’
folders.
- 5) Move the FTP and GAMEFILE windows so they are side-by-side
- 6) Drag and Drop the  Results HTML Document file from the
GAMEFILE window to the month folder in the FTP
window. **IMPORTANT!** Do not succumb to the charms of the smiling
bear --- move the  HTML file.

 060714	14 KB	Microsoft Agent Ch...	9/14/2006 9:39 PM
 060714A	17 KB	HTML Document	9/14/2006 9:39 PM

A small upload window will appear and it takes a few seconds to upload the file.

- 7) Close the FTP window and the GAMEFILE window.

You are done. Good Job!
